SUMMARY

Aspiring Software Developer with strong foundations in Data Structures and Algorithms and hands-on experience in MERN stack development. Experienced in building responsive full-stack applications and integrating AI-driven features into real-world systems. Passionate about building scalable, efficient systems with real-world impact.

EDUCATION

Shri Ramdeobaba College of Engineering and Management , Nagpur

B.Tech in Computer Science & Engineering (Data Science)

Aug 2023 – July 2027

The Jain international school, Nagpur

Class XII (HSC), 2023

Bhavan's B.P Vidya Mandir, Nagpur

Class X (SSC), 2021

TECHNICAL SKILLS

- **Programming languages:** Java, C, Python, JavaScript, MySQL
- **Libraries/Tools/Framework:** HTML, CSS, ReactJS, Node.js, Express.js, MongoDB, GitHub, VS Code, IntelliJ IDEA, Oracle, MySQL Workbench, OpenAI API
- **Concepts:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, REST APIs, Basic NLP, AI Integration
- **Operating system:** Microsoft Windows, Linux

PROJECTS

AI Resume Analyzer & Job Match Platform | MERN, OpenAI API, NLP

- Developed a **full-stack AI-powered web application** using MongoDB, Express.js, React.js, and Node.js to analyze resumes and match them with relevant job descriptions.
- Implemented resume parsing and keyword extraction from PDF/DOC files using basic NLP techniques.
- Integrated OpenAI API to generate resume improvement suggestions and personalized feedback.
- Built a job matching feature by comparing extracted resume skills with job description keywords.
- Implemented secure authentication using JWT and role-based access control (Admin/User).
- Structured backend APIs and optimized database queries for smooth performance and maintainability.

RCOEM Question Bank System | MERN Stack, AI-Based Search

- Developed a centralized **full-stack web platform** to manage and access previous year question papers across branches and semesters.
- Implemented role-based authentication (Admin/Student) using JWT with protected API routes for secure access control.
- Built an admin dashboard to upload and manage question papers dynamically.
- Designed the system to **automatically extract subject information** from uploaded PDFs, eliminating the need for admins to manually specify branch or subject details.
- Integrated AI-powered keyword-based search enabling users to retrieve relevant papers
- Optimized backend APIs and MongoDB queries to ensure fast retrieval and scalable performance.

ACHIEVEMENTS

- Solved **667+ DSA & competitive programming** problems across LeetCode, CodeChef, and HackerRank.
- Solved **233+** problems on **LeetCode** and earned the **100+ Active Days Badge** for consistent coding.
- Achieved **5-star** rating in Java and **4-star** rating in SQL on **HackerRank**.
- Qualified in the internal hackathon organized by RCOEM and advanced to the next round of SIH 2025.
- Ranked among the **Top 40 teams** in the RCOEM internal hackathon, cleared the college-level round, and advanced to the Smart India Hackathon (SIH) 2024 submission stage.
